

Pay Equity **now!**

We need to make all political parties in New Brunswick understand the need for pay equity legislation for the private sector.

What can you do?

You meet a candidate at the market, on the street or at your door, talk about pay equity by asking the following questions:

- If elected, will your party introduce pay equity legislation for the private sector?
- Are you in favor of a pay equity law for the private sector?
If not, why?

Don't forget to share their answers on social media with **#nowNB.**
